

Seniorr Press English

Inspired by HipHop as a cultural movement, *Seniorr* started his DJ career in the early 2000s. His vinyl collection of rap, funk, soul and disco, together with his feeling for the dance floor, won him several residencies. Dedicated to the groove, *Seniorr* began to organise club nights and booked Funk Bands and DJ acts all around the globe to enrich the local scene.

Later on *Seniorr*, together with *DJ Headrush* founded the DJ and producer collective, *The Niceguys*. Combining urban music styles with bass music, *The Niceguys* caught the vibe of the snow-board scene at that time, and developed into Switzerland's most wanted DJ team. *The Niceguys* have evolved from a party rocking DJ act to an internationally renowned producer collective, releasing on the English record labels *Ghetto Funk*, *Bombstrikes* and *Jungle Strikes* and on *Westwood Recordings* Canada.

In 2015 *Seniorr* entered the RedBull Thre3style competition and battled the best Swiss turntablists in the final. Shortly after, *Seniorr* established the turntablism project *Cut Delivery* with *DJ Bowser*. Together they compose short tracks on their DJ gear. From the first routine, *Cut Delivery* got support from blogs such as *DJ City*, *BPM Supreme*, *DJ Tech Tools*, *Solo Turntablism* and many more. Meanwhile, *Cut Delivery* is featured by the German DJ bag producer *pinqponq*.

As well as that, *Seniorr* still provides groove dripping DJ club sets. While sticking with his roots of Funk and Rap music, *Seniorr* listens carefully to the newest developments of the urban jungle and picks only the best fruits as soon as they are ripe. His selection gets enriched with a good portion of finest world-music. As a promoter and co-founder of *Breakadelic*, *Seniorr* is still offering a platform for underground Funk DJs supporting the ongoing development of the local groove scene.
